

Dinosaur Ridge Curriculum

4th Grade Activities

Activity Options

Students can choose from one of the following three learning activity options, or complete all three!

- ◆ Dinosaur in a Time Machine: Short Story Activity
- ◆ Virtual Field Trip Log
- ◆ Changes over Time Activity

OPTION ONE: Dinosaur in a Time Machine: Short Story Activity

Colorado was once a beach-like environment, similar to what Florida is like now. Write a story about what would happen if a dinosaur from the past took a time machine to 2020. Your story should include at least three examples of what the natural environment was like for the dinosaur millions of years ago, compared to what the natural environment is like for this dinosaur in 2020. (For example, while your story can include the dinosaur interacting with things like cars, it also needs three examples of differences found in nature.)

Use the space below and the back of this page to write your story.
